# BILORA TRIPODS

Many manufacturers over recent years have approached Comprehensive Video Supply with offers to distribute their product, but the opportunity to become the exclusive North American distributor and importer of the Bilora product line from West Germany has us feeling very special.

These European crafted products represent, without question, the finest quality and value anywhere in tripods and positioning equipment. From a compact 5144 with a fluid feel head at \$189.00 to the Extra Heavy Duty Combo at \$1399.00. We know there is no better way to go.

Any valid purchase order may be marked, "Subject to 10 Day Free Trial". We know that your Bilora will become your most favorite and most dependable piece of video gear.

## 5144 BILORA TRIPOD AND HEAD

Compact and light weight this tripod represents the answer to all the "Porta-Packers" prayers. The 5144 was designed specifically for video, not simply a photography tripod remake.

Featured is a head with the same feel and movement of a fluid head. We call it FLUID EFFECT. Drag tension is adjustable in both the pan and tilt modes giving the control usually only available on more expensive studio tripods.

The portability of the 5144 amazes everyone who uses it. Collapsing to only 20" and weighing less than 6 lbs., makes it the most convenient video tripod available. Yet it has a capacity of 18 lbs., ideal for portable video cameras.

A 15" long panhandle mounts on either the left or right side. Individually adjustable legs allow tripod extension from 20" for low angles to 54" for normal operation. Retractable rubber feet expose spikes to assure sturdiness in all terrain.

All this in a Bilora tripod for only \$189.00.

## 3124/1464 BILORA TRIPOD AND HEAD

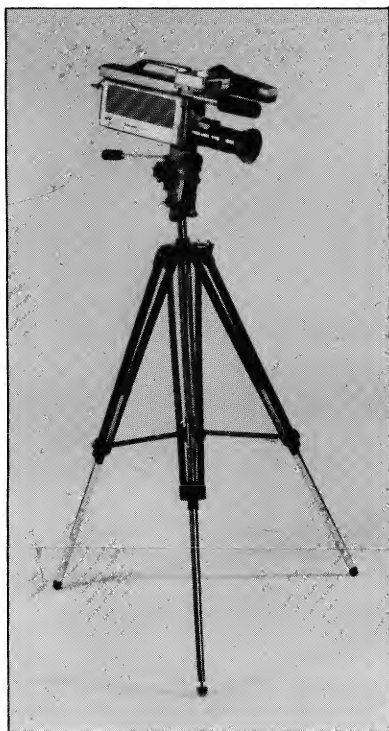

Featuring the 1464 Fluid Effect that is removable (same head as fitted permanently on 5144 compact), this combination offers superior stability and performance for field or studio use. Twin shank construction with center bracing is the reason for the extra stability, and this unit is recommended when compactness is not the highest priority feature. Fifteen inch reversible handle, built-in level, fluid effect head, retractable spikes within the rubber feet, and 1/4" camera mounting.

|                                   |                  |

| Extended                          | 61"              |
| Weight                            | Less than 9 lbs. |
| Capacity Head (Max recommended)   | 18 lbs.          |
| Capacity Tripod (Max recommended) | 30 lbs.          |

**3124/1464 Tripod and Head \$299.00**

### 3142/1464 BILORA TRIPOD AND HEAD

This tripod at first glance looks very similar to the 3124, but closer inspection will reveal that it is considerably heavier in construction and is suited for any contemporary studio or field camera except the "studio-use only monsters". It also features an elevation height of 70", with the stability required at that extension, as well as all of the other Bilora features of the 3124.

|                                   |                    |

| Collapsed                         | 30"                |
| Extended                          | 70"                |
| Weight                            | Less than 11½ lbs. |
| Capacity Head (max recommended)   | 18 lbs.            |
| Capacity Tripod (max recommended) | 65 lbs.            |

**3142/1464 Tripod and Head \$409.00**

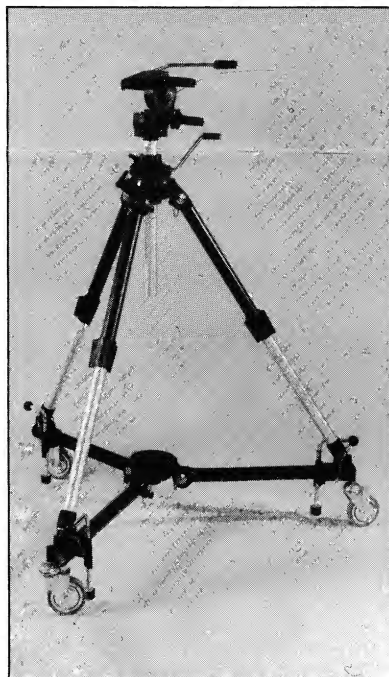

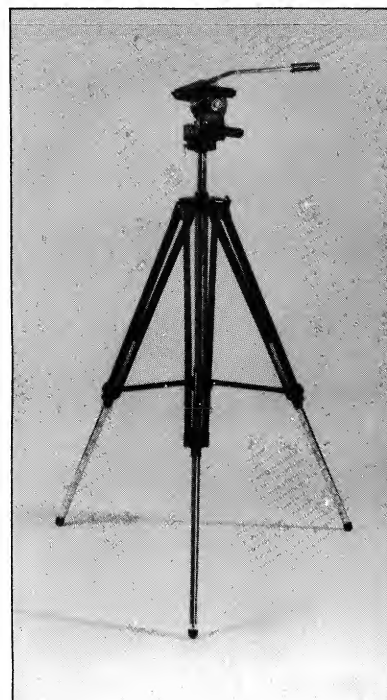

### 3142/1482 TRIPOD AND HEAD

Features 60 lb. capacity fluid effect head.

This heavy duty, but lightweight set-up, features the 1482 head that is like no other in its weight class. From the fluid feel smoothness, left or right hand reversible handle, adjustable preset drag tension, tilt safety

### 433/445/1482 BILORA TRIPOD, COLUMN AND HEAD

Super heavy duty Bilora combo. Loaded with all the features required for the utmost in creativity and flexibility in the studio or on remote. We at Comprehensive Video Supply Corporation take our membership in NAB (National Association of Broadcasters) seriously, and the Bilora product line is truly a broadcast worthy piece of equipment, that is complimentary to the finest cameras manufactured today.

|                                   |                                   |
|-----------------------------------|-----------------------------------|
| Collapsed                         | 30"                               |
| Extended                          | 70"                               |
| Weight                            | Less than 20 lbs. (without dolly) |
| Capacity Head (max recommended)   | 60 lbs.                           |
| Capacity Tripod (max recommended) | 100 lbs.                          |

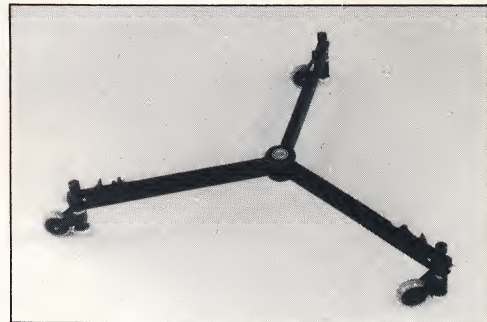

**433/445/1482 Tripod, column and head \$1399.00**

## 432 BILORA DOLLY

This unique accessory to the 5144, 3124 and 3142 Bilora tripods is lightweight (less than 5½ lbs.) and features a unique positive lock system that prevents "roll away". And would you believe, the 432 will carry 85 lbs. of Bilora tripod, head and camera.

|            |                            |
|------------|----------------------------|
| Weight     | Less than 5½ lbs           |
| Capacity   | 85 lbs.                    |
| Fits       | Bilora 5144, 3124 and 3142 |
| <b>432</b> | <b>\$199.00</b>            |

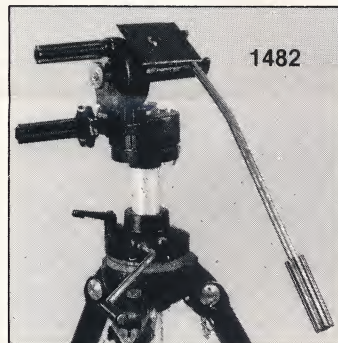

**Note:** Because the #432 dolly is used with three different capacity tripods, it must be considered expensive in conjunction with the 5144, and a little overkill. We recommend using our American made AD-1-L light duty dolly when using cameras under 10 lbs.

## 430 BILORA DOLLY

A super strong unit with five inch rubber wheels and positive lock system, the 430 supports the heaviest cameras when mated with the 433 Bilora tripod. It folds up but not as compactly as the 432 dolly. A camera or Bilora head can be mounted to the dolly for ground level shots.

**430**      **\$599.95**

## SUMMARY OF BILORA PRICING

|              |   |           |
|--------------|---|-----------|
| 5144         | Tripod and Head   | \$ 189.00 |
